Subject: Draft Airport EIR

12/19/2005 06:13 PM

TO: Angela Reynolds, Environmental Officer, City of Long Beach

I support the conclusions of the Draft EIR for Long Beach Airport Terminal Area Improvement and urge its speedy certification.

The Draft EIR has answered the concerns raised during the public review and comment period for the project. The City of Long Beach should proceed without further delay to improve the terminal to at least approximately 103,000 square feet and build the parking garage. Further delay will only increase the inconvenience being experienced by passengers and airport users.
